

“Print Shops: What, Who, and How”

Print shop services save school districts time and money. Many types of services are offered. Staffing, equipment issues, client base, administration, and delivery are among the many factors impacting today’s print shops.

Join us on May 17 for a panel discussion featuring NAMTC members as they share their insights on the variety of services provided by today’s print shops.

NAMTC offers FREE virtual professional development opportunities for members and non-members.
