

As school districts expand digital learning in the new economic reality, they look for resources to bring into classrooms. Many schools are finding opportunities to utilize Open Educational Resources (OER), in lieu of purchasing content. OER includes free teaching and learning materials for use, remix, and redistribution, without the burden of copyright permissions.

The U.S. Department of Education's Office of Educational Technology is championing the use of OER nationwide through the #GoOpen program.

OFFICE OF
Educational Technology

Date: Tuesday, May 16, 2017
Time: 2 p.m. CST or 3 p.m. EST

Join us on May 16 for a NAMTC Shared Conversation with presenter Bradley C. Landis, Ed.D., to receive an OER overview and learn how Educational Service Agencies can support schools incorporating OER into their educational ecosystems.

NAMTC offers FREE virtual professional development opportunities for members and non-members.
